EDUCATION

B.E., Computer Science

AI & Machine Learning

K. Ramakrishnan College of Tech.

2023 - 2027 · Ariyalur, India

Currently in Final Year

PROGRAMMING

Python

Java

JavaScript / HTML / CSS

SQL / DAX

SKILLS

Frontend

React / React Native, TypeScript,
HTML & CSS / Tailwind

Backend & AI

Firebase, Node.js, AI/ML Basics

Mobile

Kotlin & Jetpack Compose

Tools & Cloud

PowerBI, AWS & Azure

CERTIFICATIONS

AWS Solutions Architect

Associate (SAA-C03)

Microsoft Azure AI

Engineer Associate

AWS Cloud Architect

Solution – Simplilearn

LANGUAGES

Tamil – Native

English – Fluent

Hindi – Intermediate

Spanish – Beginner

AI & ML undergraduate specializing in AI application development, computer vision, and full-stack engineering. Hands-on experience building React, Firebase, and AI-powered solutions, with working knowledge of AWS and Azure cloud platforms. Proficient in Python, OpenCV, and deep learning frameworks, with a strong foundation in UI/UX design, data analytics, and scalable software architecture.

EXPERIENCE & PROJECTS

Co-Founder · Atti-Community

2025 - Present

- Leading development across web, branding, and automation work for a student-run tech and creative studio.

Data Analyst · K. Ramakrishnan College of Technology

2025-2026

- Analyzed student academic performance and extracted actionable insights using PowerBI and data analysis tools.

Core Developer · SnuggleMusix · Personal Project

- A premium open-source Android music player built with Kotlin & Jetpack Compose. Supports YouTube Music, JioSaavn, Spotify import, lyrics sync, Material You theming, and more. Features a full CI/CD release pipeline on GitHub Actions.

Full-Stack Developer · Snuggle Messenger · Personal Project

- A React Native messaging app with Firebase Authentication and a realtime database architecture supporting secure message synchronization.

KEY ACHIEVEMENTS

Developed 2+ full-stack AI applications integrating machine learning, computer vision, and cloud technologies.

Attained industry-recognized AWS Solutions Architect – Associate (SAA-C03) global certification.

Earned Microsoft Azure AI Engineer Associate certification, demonstrating proficiency in cloud-based AI service deployment.

Built production-ready responsive applications using the React ecosystem, deployed to live hosting environments.

INTERESTS

Professional Artist – pencil sketching, digital art, canvas painting, 3D modelling & animation (Blender). **UI/UX Design** – interactive and stunning rebranding concepts. **Editing** – video, photo editing, and VFX.
